PROFESSIONAL SUMMARY

Product Analyst with experience in product analytics, customer retention, fraud-risk mitigation, payments, and operational performance at Snapdeal. Proficient in SQL, Python, Databricks, and business intelligence, with hands-on experience in cohort analysis, campaign experimentation, KPI reporting automation, and customer journey optimization. Experienced in translating business problems into data-driven insights and collaborating on product, technology, customer experience, and operations initiatives.

PROFESSIONAL EXPERIENCE

Product Analyst | Snapdeal (AceVector Group) **March 2026 – Present**

- **Influencer Management Platform:** Driving end-to-end development of an in-house influencer management platform covering onboarding, business operations, finance, and budget management to improve workflow traceability and reduce reliance on email-based coordination.
- **Customer Retention & WhatsApp Experiments:** Experimenting with WhatsApp-based customer communications, improving conversion rate (CVR) from **3.0% to 4.5% - a 50% relative uplift**, at an estimated cost of **₹20–₹30 per CPT**.
- **AI-Powered IVR & Win-Back:** Driving cohort design, customer targeting, and end-to-end integration planning for AI-powered IVR workflows targeting abandoned-cart recovery and customer win-back, with a target of **2,000+ orders** per day through automated customer engagement.
- **NDR & RTO Optimization:** Analyzing non-delivery report (NDR) rescheduling workflows and conducting operational experiments, contributing to a reported **1.2% impact on RTO performance**.
- **Payments & Refund Analytics:** Investigating Razorpay integration and system-level refund issues across approximately 5,000 orders per day, contributing to an improvement in the refund metric from **94.6% to 98.5% MTD**
- **AI Chatbot Optimization:** Analyzing in-app chatbot performance and customer support journeys to identify friction points, contributing to an increase in CSAT from **45.3% to 67% month-to-date.**
- **SHIELD Integration & RTO Risk Mitigation**: Driving SHIELD fraud-risk integration to identify high-risk users using device-level risk signals and support targeted interventions to reduce RTO. Analyzed a risk dashboard covering **9,864 risky SHIELD IDs across 1.4M total SHIELD IDs.**
- **Reporting Automation:** Automated recurring reporting workflows across **customer experience (CX), chatbot performance, refunds, and RTO**, reducing manual reporting effort and improving KPI monitoring consistency.

PROJECTS

CodeReview.ai | AI-Powered Code Review Platform | Project Link

- Developed an AI-powered code review platform to analyze source code for logical errors, code quality issues, and deviations from programming best practices.
- Integrated AI-generated feedback and improvement suggestions to help developers improve code readability, maintainability, and development efficiency

SKILLS SUMMARY

Programming & Querying:	Python, SQL, Java
Analytics Libraries:	Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn
Tools & Databases:	Power BI, DataBricks, Excel, Notion, Tableau, MySQL, Git-GitHub
Development Environment:	PyCharm, Jupyter Notebook, Visual Studio Code, Intellij IDEA
Soft Skills:	Team Management, Problem Solving, Collaboration, Critical Thinking

EDUCATION

Chitkara University Rajpura, Punjab, India

BE Computer Science and Engineering **August 2023 - Present**

AWARDS AND CERTIFICATIONS

- **Certifications:** Python Foundation Certification, **Infosys** | Introduction to Data Management, **Meta** | Blockchain foundation in Business and Financial Services, **INSEAD** | Data Analytics Bootcamp, **Udemy** | Data Analysis with Spreadsheets and SQL, **Meta** | Power BI visualization with AI, **Office Master**
- **Awards/ Activities:** Outstanding Student Volunteer Award - **IEEE Delhi Section** | Excellence Award 2023 - Amer Ujala | Winner, DICE TECHNOVISION 2.0 | Winner, SCIENCE CARNIVAL 2024 |

LEADERSHIP EXPERIENCE

Chairperson | WIE IEEE-CIET Affinity Group **June 2025 – Aug 2026**

- Led **10+ technical and professional events,** coordinating **15–20 volunteers** and contributing to a reported **25% increase in participant engagement.**
- Organized mentorship and skill-development workshops for **200+ students**, supporting technical learning and professional development.
